

The Future & Beyond

Once your web site is up and running on the internet, we can offer a maintenance service, in which we will maintain and update your site for you when ever you require it, this is for a small nominal monthly fee but this is purely optional extra.

How Do I Start ?

If you would like any further information on our Web Design package or you would like to know what the cost is please do not hesitate in getting in contact with us and we will only be too delighted to talk to you and answer any of your questions.

You have nothing to loose and everything to gain.

Now's the Time

The internet is growing and growing and the general members of the public are turning to the internet more and more to find out information, do shopping , book holidays, watch films and listen to music

Most businesses today have a web site and find that the majority of their business comes from the web.

It's the fastest growing media out there and we are sure that once you have your site up and running you will not look back.

Your Web Site To Your Design

Have you ever wanted to have a web site to promote your business or club but when you looked into it the price just frightened you off, well look no further, here at Golden Memories Sound & Design we can help you get your web site up and running at very affordable prices.

We can produce a web site consisting of five pages for you and a domain name of your choice (providing its available), the pages can be of what you want with the text that you want and pictures that you want.

The First Step

The very first step is to have a consultation meeting, this where you tell us what you want on your web site, how you would like it laid out, what text you would like and what graphics and pictures you would like, and what colors etc you would like.

We then go away and make a mock set up of the web site, while this is happening you let us know exactly what text you would like on the web site and pictures, if you want a specific picture but cant find it we can help you look for it.

The Next Stage

When the mock up is completed you will be invited to come along and have a look to see if its what you require, If you require any alterations these can be made at this stage and any additions ,when you are completely satisfied we can then move to the next stage.

The Final Step

When you are completely satisfied with the look and feel of your web site, we move onto the final stage of the process and that's publishing your site onto the world wide web, your price for producing the web site will include your domain name, providing its available, if not we can help you come up with a catchy name that will be remembered and can easily be available.

We then come to publishing your site onto the internet, there are many different web hosting companies out there and we can help you get the best available for the best price possible,
